

Meeco's Privacy Promise & Policy

Data rights and digital sovereignty is why Meeco exists. This includes protecting Your privacy and ensuring You have the access and control to decide how Your data is used. Meeco is headquartered in Australia, with operating companies in Belgium and the United Kingdom.

We are required by law to comply with the Australian Privacy Principles and the General Data Protection Regulation, also known as GDPR.

If You live in Europe or use data services in Europe, as of 25 May 2018 You will have increased digital rights under the [General Data Protection Regulation](#) or GDPR.

Because Meeco was designed with GDPR in mind, many of these important data rights have already been built into Meeco for how You and we manage and process Your data. Here is the citizens' rights language word for word from the GDPR, including a summary of how Meeco enables these rights for You.

Easier access to their data — Our detailed privacy policy clearly explains what information we collect and process, why and when plus how we collect, hold, use and disclose Your personal information. We aim to make this as easy to understand as possible instead of technical legal language.

A new right to data portability — Your data is 100% portable. Export it, share it, or permanently delete it from Meeco, it will always be Your choice.

A clearer right to erasure ('right to be forgotten') — You can delete Your Meeco account at any time. If You later change Your mind and decide You'd like to have a Meeco account once again, we will welcome You back with open arms. Though, You will have to recreate all of Your data. When we say we deleted it, we mean we really really deleted it.

Right to know when their personal data has been hacked — If Meeco were ever hacked and/or suffered a serious data breach, we would inform You promptly as well as notify the relevant Australian, European or United Kingdom data protection supervisory authority.

What rights do You have under the General Data Protection Regulation?

Your digital rights under GDPR are a great step towards a digital society of equals. We support the GDPR and what it stands for. It is only right that You should have control over Your personal data.

We want You to know exactly what Your personal data rights are and we want everyone who uses Meeco to benefit from the world's leading data regulations, regardless of where they live. In our Privacy Policy, we describe these rights in simple language together with how Meeco meets them.
